

Radial sweeper R 1000 | R 1000 E

- working width 1000 mm
- for sweeping large quantities of debris
- reaches every corner, due to the special bristle angle
- direction of rotation can be flexibly controlled (left and right)
- bristle set can be changed quickly by using screws
- side/front plates available

Available for:

- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric+

Radial sweeper R 1000 (wire)

- working width 1000 mm
- pure wire brush
- excellent and sustainable green removal on paved surfaces when used regularly
- reaches every corner, due to the special bristle angle

Available for:

- ☐ CM2 PRO with hydraulic

Weed brush with wire WKB 660 | WKB 660 E

- working width 660 mm
- effective removal of moss and weeds
- 3 rotating brush holders each with 4 wire braids under the brush container attack the plants from all sides
- floor-protecting work thanks to even pressure distribution
- quick exchange of the wire braids via quick-change system

Available for:

- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric+

Weed brush with wire WKB 550

- working width 550 mm
- sturdy wire braids remove moss and heavy green growth effectively
- brush arm can be swiveled manually by 180° from left to right
- sweeps up to the edges

Available for:

- ☐ CM2 PRO with hydraulic

Segment Brush SB 1800

- working width 1800 mm
- for sweeping large amounts of debris
- specially angled brush reaches into every corner
- suitable for both collection sweeping and free sweeping
- brush rotation direction can be flexibly controlled in free-sweeping mode (right/left rotation)
- brush segments can be replaced without tools

Available for:

- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric+

Axial sweeper AX 1200

- working width 1200 mm
- overhead sweeping principle with pendularly suspended roller brush
- leading roll-off lip guides the debris to the roller brush
- AX 1200 expandable with up to two additional side brushes
- sloping left/right for free sweeping possible (only with raised foam roller)

Available for:

- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric+

Feed auger FA 800 | FA 800 E

- working width 800 mm for feeding table maintenance
- open windings loosen and upgrade the feed and bring it back to the animals
- mold residues and smear layers are reduced
- can be equipped with an additional side brush

Available for:

- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric+

Snow plough

- working width 1600 mm
- with robust protective edge
- can be swiveled to the left and right
- pushes both snow and dirt

Available for:

- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric+

Double scraper ASS 900 | ASS 900 E

- working width 900 mm for the maintenance of the running and lying area
- with two rubber lips attached one behind the other
- c-shaped front does not allow rubbish to drift to the side
- side brushes for sweeping the lying surfaces optionally available (for hydraulic and E-Lectric+)

Available for:

- ☐ CM2 PRO without hydraulic
- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric
- ☐ E-Lectric+

Washer SW 900 | SW 900 E

- working width 900 mm
- field of application: running and lying area maintenance
- incl. 150 l water tank, filter, high pressure pump, clearing stars
- adapter for high pressure lance available as an accessory

Available for:

- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric+

Spreader EG 540

- flexible spreading paddles transport the bedding out
- self-filling by tilting down the front swing
- including column slider
- can be equipped with an additional side brush

Available for:

- ☐ CM2 PRO with hydraulics

Spreader EG 580 (Trailer version)

- field of application: running and lying area maintenance
- high quality, robust guide wheels
- flexible spreading paddles transport the spreading material out

Available for:

- ☐ CM2 PRO with hydraulic

Lime and feed spreader

- field of application: feeding table maintenance
- ideal for evenly sprinkling lime
- can also be used as a concentrate feeder
- with dosing opening in the manually swiveling ejector bar

Available for:

- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric+

Pushing shield 80-160

- feeding table maintenance
- working width can be flexibly adjusted from 80 bis 160 cm by using a perforated strip
- perfect for narrow passages

Available for:

- ☐ CM2 PRO without hydraulic
- ☐ CM2 PRO with hydraulic
- ☐ E-Lectric
- ☐ E-Lectric+

Light goods bucket

- field of application: large area cleaning
- working width 800 mm
- volume 115 ltr.
- tilt mechanism via hydraulic

Available for:

- ☐ CM2 PRO with hydraulic

Mulch mower WM 850 E

- ecologically valuable green space maintenance
- fertilising and mowing in one operation
- multiple mower blade shredding and distribution in the sward

Available for:

- ☐ E-Lectric+
