- nearly silent operation

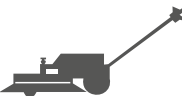

Low-noise and emission-free work:
Perfect for indoor cleaning and working near frightened animals.

WR 650 Battery

PERFORMANCE ALL YEAR ROUND!

Radial sweeper

- removes almost any dirt
- also sweeps out unevenness perfectly
- integrated charger

WR 870 Battery PRO

WR 870 Battery

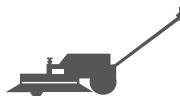

Our most powerful electric:

The WR 870 in the E-Go version can also work with wire brushes.

WR 870 EGO

Radial sweeper

- consistently powerful Honda engine
- angled surfaces are swept out quickly
- for large-volume debris and the moving heavy masses
- environmental friendly moss control without chemicals

Available special equipment:

- industrial engine Honda GXV160 OHV
- double bristles
- nursing tires, perfect for sensitive surfaces like tennis courts, planting foils or artificial turf

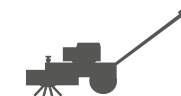

WR 870 Honda PRO

WR 870 Honda

WR 870 Honda available with:
PPN brush
mixed stock PPN/wire brush
wire brush

The difference between the WR 870 and **WR 870 PRO** version is the height of the brush cup. The higher the brush cup, the more dirt can be moved.

Weed brush

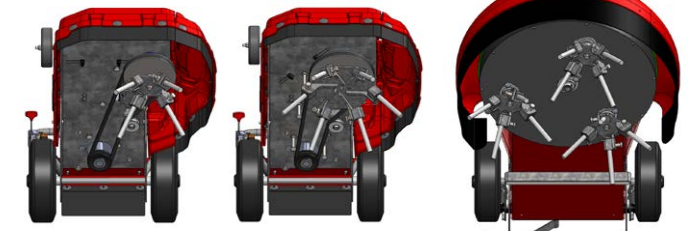

- System with four wire brushes
- available as a petrol or battery-powered device
- handy even in difficult to access areas

WKB 330 Loncin

WKB 330 Battery

WKB wire brushes:
Long-lasting, adjustable wire brushes that can be easily replaced via a quickchange system.

WKB 330

WKB 430

WKB 660

The rotating wire brushes remove green growth effectively, without chemicals and sustainably. The machines work gently even on sensitive surfaces and clean corners and edges.

Weed brush

- Six interchangeable wire brushes for clean results
- for the demanding private user and professional use
- two motor variants

WKB 430 Honda GCVx170

WKB 430 Honda GXV160 (Industrial engine)

The compact powerhouse:

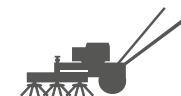

The WKB 430 is easy to handle and delivers outstanding cleaning results.

EGO battery technology

- ensures long service life
- extremely short charging times

WKB 430 EGO
